

PG Diploma in Fashion Designing

Growing up in the fashion capital of my country, Mumbai, I had always been close to fashion in more than one way. Belonging to a family earning bread and butter through a self-running boutique, I have been seeking insights of the fashion industry from a young age. Spending my childhood days close to fashion and its making, I was always enticed towards having a professional career in this field. The statistics that the fashion industry has presented over the past few years in terms of contribution to the GDP, it comes under one of the most striking sectors of the economy. Hence, I extend my passion to pursue a Postgraduate Diploma in Fashion Designing from Centennial College.

After completing my Bachelor of Design in Fashion from Delhi University in 2018, I have been working closely with a reputed fashion brand- Ritu Kumar. Beginning as an intern and now working as a Creative Designer within one and a half years has helped evolve on a personal level as well. In my one and half-year-old journey, my designs have been represented by the brand on various platforms. Interacting with customers, understanding the requirements of the clients as well as collaborating with the workers have now become key aspects of my personality. Being familiar with the industry since so long, I have realised the importance of seeking higher education to create a benchmark in the field of fashion.

As I embark on the journey of seeking a post-graduate diploma in fashion designing, I would like to mention that I am a potential student for Centennial College. The course of my internship and UG studies has prepared me enough protocol academic as well as professional challenges that may occur while pursuing the course. I believe that I can excel in setting up a career in Fashion if given an opportunity to pursue this course in your esteemed institution. Thank you for reviewing my application.
