

## Countries and their Currency

There are over 195 countries in the world and seven continents such as Africa, Asia, Australia, Europe, North America, South America and Antarctica. Each country is different with its own history, architecture, struggles, culture and political identity. One thing that invariably is common amongst all countries is the use of money as a medium of exchange. All countries irrespective of whether they are small or big, landlocked or island-based, rich or poor, have a specific currency used for all monetary transactions. In this blog, let's take a tour around the world and look at the list of countries and their currency!

### Asia: Countries & their Currency

Source: Belt and Road News
